

SCHOLARION ACADEMY

Certificate in Applied Agentic AI: Systems, Design & Impact

DRAFT — NOT OPEN FOR ENROLLMENT

20 weeks total; 2 ten-week courses. Lead faculty: Dr. Martins Donbruce Idahosa. Biography pending.

Programming fundamentals required; work experience preferred, not mandatory.

Fees, start dates and live schedules are unconfigured. Sandbox only; no real payments. No CEUs or employment guarantees.

Learning outcomes

Build a bounded multi-agent prototype from explicit requirements.

Integrate retrieval and scoped protocol tools using synthetic data.

Evaluate grounding, trace quality and operational failures.

Design transparent agent interfaces and a reproducible delivery process.

Defend a portfolio and product strategy with measured limitations.

Projects and final review

Product strategy and working prototype defense.

Problem and assumptions: 15 points (proposed)

Artifact and reproducibility: 25 points (proposed)

Evaluation evidence: 25 points (proposed)

Human oversight and risk: 25 points (proposed)

Defense and communication: 10 points (proposed)

P14-B1 — Applied agent foundations

Ten-week course design; teaching materials require academic review.

Week 1: Choose a bounded applied-agent problem

Produce and explain an evidence artifact for: choose a bounded applied-agent problem.

Week 2: Model autonomy and stopping conditions

Produce and explain an evidence artifact for: model autonomy and stopping conditions.

Week 3: Build a structured generation baseline

Produce and explain an evidence artifact for: build a structured generation baseline.

Week 4: Compare plans against observable evidence

Produce and explain an evidence artifact for: compare plans against observable evidence.

Week 5: Coordinate specialist workers

Produce and explain an evidence artifact for: coordinate specialist workers.

Week 6: Connect a recoverable workflow

Produce and explain an evidence artifact for: connect a recoverable workflow.

Week 7: Review a synthetic report with citations

Produce and explain an evidence artifact for: review a synthetic report with citations.

Week 8: Expose a scoped database tool

Produce and explain an evidence artifact for: expose a scoped database tool.

Week 9: Test tool-protocol denial cases

Produce and explain an evidence artifact for: test tool-protocol denial cases.

Week 10: Defend an integrated midterm prototype

Produce and explain an evidence artifact for: defend an integrated midterm prototype.

P14-B2 — Applied agent delivery

Ten-week course design; teaching materials require academic review.

Week 1: Route retrieval across data sources

Produce and explain an evidence artifact for: route retrieval across data sources.

Week 2: Measure grounding and trace quality

Produce and explain an evidence artifact for: measure grounding and trace quality.

Week 3: Estimate product value under uncertainty

Produce and explain an evidence artifact for: estimate product value under uncertainty.

Week 4: Design transparent approval interfaces

Produce and explain an evidence artifact for: design transparent approval interfaces.

Week 5: Build a test-first delivery pipeline

Produce and explain an evidence artifact for: build a test-first delivery pipeline.

Week 6: Compare deployment options and costs

Produce and explain an evidence artifact for: compare deployment options and costs.

Week 7: Rehearse a cloud deployment design

Produce and explain an evidence artifact for: rehearse a cloud deployment design.

Week 8: Assemble a traceable project portfolio

Produce and explain an evidence artifact for: assemble a traceable project portfolio.

Week 9: Validate product and governance assumptions

Produce and explain an evidence artifact for: validate product and governance assumptions.

Week 10: Present the prototype and strategy defense

Produce and explain an evidence artifact for: present the prototype and strategy defense.

Delivery and release status

Transfer and non-duplication mappings remain proposed; no automatic credit.

Certificate: Scholarion Academy Certificate of Completion. Badge issuance remains disabled pending approved completion rules.

Learning hours: [160, 160] estimated

Tool versions, educational licenses and faculty support capacity are unverified. No third-party affiliation or endorsement is implied. Use synthetic or licensed data only.

Complete original lessons, slide scripts and licensed readings

Executable starter and instructor notebooks with synthetic data cards

Validated quizzes, assignments and scoring policies

Confirmed tool versions and educational licenses

Faculty biography, delivery schedule and support capacity

Approved finance, completion and academic publication configuration

Contact the Academy through local Support. Advisor scheduling, financing, refunds and cohort deadlines require configuration. This brochure is generated from the same design data as the program preview.
